# Map it out.

People often come to us with a **goal** in mind that's part of a **bigger dream**. What's yours? Do you want to speak another language and travel? Develop skills to get a new job? Make beautiful art or furniture?

You can **design and build** your goals and dreams by taking classes with Continuing Education. Talented instructors are here to help you develop knowledge, skills, and experience.

Participate in an engaged **learning community**. Locations include our main campus on Capitol Hill, the Wood Technology Center in the Central District, the Maritime Academy in Ballard, and online.

## JOB & TECHNICAL SKILLS

Build or re-tool your skills by taking a class or certificate program.

- the trades
- business
- teaching
- law
- marketing & communication
- translation & interpretation
